

Terrabound

Residential and Commercial resin bound surface

Terrabound Resin Bound Surfacing is our residential grade resin bound surfacing system, introduced to provide a more cost effective solution for large and small projects.

Terrabound is available in a select range of natural aggregates. Terrabound provides a seamless, porous, hard wearing, low maintenance and decorative surface.

Stormwater Runoff

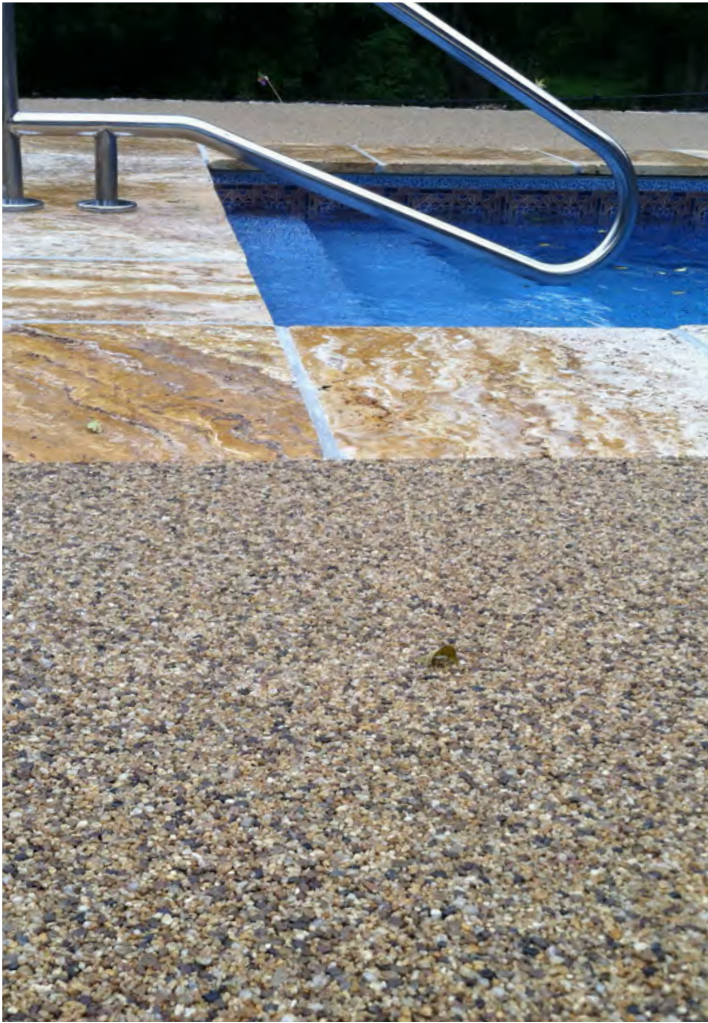

Terrabound is porous, allowing water to permeate/percolate through the surface and beyond when a suitable base build-up configured for stormwater runoff has been installed.

Where is Terrabound used?

- Landscaping
- Sidewalks
- Patios
- Pool Decks
- Access Roads
- Driveways

A standard range of Terrabound finishes are available, each an exact formulation of aggregates bound with specific quantities of resin.

Autumn Toffee
3 & 5mm

Chestnut Brown
6 & 10mm

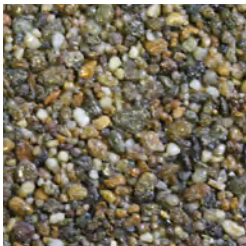

Chocolate Buff
3, 6 & 10mm

Rhine Gold
6 & 10mm

Terracotta
3 & 6mm

Trent
3, 6 & 10mm

Tuscan
6mm
